1

open **Gold edge_letterpress Bcard.psd** and double click on the layer “**YOUR CARD DESIGN**”. Put your own artwork inside this new **.psb** layer. Save this document and quit it.

important:

- For best results, avoid using small font sizes.
- Never re-name or re-order layers in **Gold edge_letterpress Bcard.psd**.
- Always save a backup of your main file **Gold edge_letterpress Bcard.psd**.
- For letterpress effect don't use a background layer in your artwork. It should only include objects on a transparent layer.

2

Double click on the layer “**REFLECTION (no transparent, it's important)**”. Put your own artwork inside this new **.psb** layer. Save this document and quit it.

important:

- Don't turn of background layer.

THAT'S ALL
