

# FREE LETTERPRESS BUSINESS CARD MOCK-UP

» QUICK GUIDE

1

locate and install **Letterpress Bcard.atn**

**To install action file:** From the Actions Palette in Photoshop, click the small arrow in the upper right corner of the palette, and choose load Actions. The action will be added to the current Actions.

2

Now open **Letterpress Bcard.psd** and double click on the layer **“YOUR ARTWORK”**. Put your own artwork inside this new **.psb** layer. Save this document and quit it. Back to **Letterpress Bcard.psd** open up action panel and play **Letterpress Bcard** action. You can also use keyboard shortcut: **Command (Ctrl) + Shift + F9**

See the magic?

## Important Notes:

1. Never **re-name** or **re-order** layers in **Letterpress Bcard.psd**.
  2. Always save a backup of your main file **Letterpress Bcard.psd**.
  3. For best results, avoid using small font sizes. You will get best result with **+11pt** font sizes.
  4. Never use a background layer in your artwork. It should only include objects on a transparent layer. So if your are going to design your business card from scratch, remember to remove background layer when you are finished.
- This is an example of how your artwork should appear:

Right

Wrong!
